Mico L. Nakase

Full Stack Developer & AI Engineer

CONTACT:

+63 966 527 0518

miconakaseyt@gmail.com

349 Magsaysay Rd., San Antonio, San Pedro City, Laguna

SKILLS:

- Full-Stack Development
- AI & Agentic Engineering
- Prompt Engineering & AI Optimization
- Microservice Architecture
- Fast-Paced Development
- Design Thinking & UI/UX
- Project Team Leadership
- Analytical Problem-Solving
- Strong Communication

EDUCATION:

SAINT FRANCIS INSTITUTE OF COMPUTER STUDIES

2022-2026

Bachelor of Science in Information Technology

SAN FRANCISCO DE SALES

2020-2022

Science Technology, Engineering and Mathematics

LANGUAGE:

- English
- Tagalog

PROFILE:

Energetic Full Stack Developer and fresh graduate with a deep passion for AI engineering and clean code architecture. Proven communicator and collaborative leader experienced in steering team projects and designing responsive user interfaces in fast-paced development environments. Skilled at troubleshooting complex logic errors and looking to bring dedicated, proactive energy to a dynamic development team

EXPERIENCE:

FULL STACK & AI ENGINEER INTERN | FEB 2026 - JUL 2026

Prosperna Inc.

- Engineered autonomous AI agents using Python and FastAPI to automate internal operations and generate optimized product descriptions.
- Implemented advanced LLM techniques including custom prompt engineering, streaming responses, and secure tool usage (tooling).
- Enhanced existing full-stack microservices using React and TypeScript to deliver responsive user interface features and reliable frontend updates.
- Maintained and optimized core modules within the existing codebase to handle secure payment processing and order management workflows.
